**Attachments:** Benzoapyrene\_factsheet\_AODRAFT\_06 02 14-KN.docx

Hi Dahnish, things with the move are going well, thanks. Still working on some logistics here, but that is to be expected.

I don't anticipate any major findings to change between the public comment draft and the external peer review draft. Looks like the draft will probably be released this month, so I would adjust the chronology to reflect that. I'm not sure, but I presume the SAB is still anticipating the date of the BaP meeting to be in the Fall. Samantha would know more.

I took a look at the attached fact sheet and have a few suggestions.

Hope all is well.

Kathleen

Hi Kathleen - I hope your move went well! Attached to this email is the BaP factsheet that you have reviewed several times over the last 6 months or so. The IO wants me to check back in with you to see if anything has changed between the public comment draft and the external peer review draft that we plan on releasing in the coming weeks.

Can you please review the attached factsheet, specifically looking at the "description of products and findings" section?

Please let me know if you have any questions!

Thanks!
